YASA JABER RASHED

Front-End Developer(React.js)

+201149079150 yasajaber@gmail.com sohag

ABOUT ME

Dedicated Front-End Developer with over 3 years of experience building scalable Single Page Applications (SPAs) using React.js, Redux, and TypeScript. Adept at creating reusable components and managing complex state for data-heavy applications . Strong background in Graphic Design ensuring pixel-perfect UI/UX implementation. Committed to writing clean, maintainable code with a solid foundation in OOP and Algorithms.

EDUCATION

EELU University | 2023-2027

Bachelor of Science in Information Technology (IT)

- Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming (OOP), Web Development, Database Management Systems.

PROJECTS

Church Management System (SaaS Platform)

- Built a comprehensive Dashboard & Analytics platform using Next.js (App Router) and TypeScript, visualizing complex attendance trends with interactive charts (Recharts/Chart.js).
- Designed a fully responsive, RTL-supported UI using Tailwind CSS, ensuring a seamless experience for Arabic users.
- Implemented complex client-side state management using Zustand to handle multi-role user sessions (Admin, Teacher, Servant).
- Developed features similar to ERP systems such as automated reporting (PDF/Excel exports), attendance tracking algorithms, and detailed performance metrics.
- Optimized application performance and data fetching strategies using SWR for real-time updates.

Advanced Authentication System | Full-Stack Developer (MERN Stack)

- Developed a production-ready authentication interface supporting OAuth 2.0 (Google & GitHub) and traditional email login.
- Implemented secure client-side session management using JWT and handled advanced security flows like Password Recovery and Email Verification.
- Designed responsive, user-friendly forms with real-time validation and error handling to enhance User Experience (UX).
- Ensured front-end security best practices against XSS and CSRF attacks, integrating seamlessly with a Node.js/Express backend.

SKILLS

- TypeScript
- React.js
- Next.js
- Redux
- Tailwind CSS
- Git
- RESTful API Integration
- Jest
- OAuth 2.0
